arowoloisaacabiodun01@gmail.com

A recent Software Engineer graduate with experience in building scalable full-stack web applications, APIs, and a strong programming knowledge. I'm comfortable working with multiple languages, tools, and frameworks, and enjoy solving problems as part of a team. I'm eager to apply what I've learned and grow my skills in a fast-paced development environment where I can make a real impact.

EDUCATION

Higher Education: Tomsk State University

Faculty: Higher IT School (HITs), Profile: Software Engineering

Bachelor of Science (September 2021 - May 2025)

The topics of my scientific research: «Key Management System», «Design and Development of a Project Management System».

Offa Grammar School

High School Diploma (September 2013 - July 2019)

INTERNSHIP

Tomsk State University

Internship (Feb 2024 - May 2024)

Designed and built a key management system, reducing lost-key incidents by 80% and streamlining classroom/office access for authenticated users. Project fully implemented with .NET Core Frameworks and React.

Tomsk State University

Internship (Final Year Project | Sep 2024 - May 2025)

Designed, developed, and documented a project management system with real-time functionality, enabling organizations to coordinate teams, assign tasks, and track progress efficiently, improving collaboration and work-flow management.

FREELANCING

Other Projects

Freelancing (Jun 2023 - Aug 2023)

Developed and deployed a custom Word-press theme from scratch for an organization, ensuring responsive design and optimized performance.

Freelancing (Jul 2025 - Aug 2025)

Built a content aggregation platform by scraping data with Python (Beautiful-soup, Selenium), storing structured information in MySQL, and dynamically rendering it on a hosted website for seamless user access.

SKILLS

Programming Languages: C#, Python, JavaScript, Typescript, HTML, and CSS.

Tools /Frameworks: Git, Docker, Restful APIs, React, Vue, Flask, Express, .NET Core Frameworks, RDMS, NoSQL.

Others : AWS, Azure, Yandex Cloud Storage, System Analysis, UML, BPMN, Software Testing and Debugging, Object-Oriented Programming (OOP), Database Management, Data Structures & Algorithms, SQL, Word-press, and PHP.
