

AROWOLO ISAAC

Software Engineer - Full-stack Developer and System Analyst

[GitHub](#) | +7 952-883-29-64 | arowoloisaacabiodun01@gmail.com | [Portfolio](#)

Recent Software Engineering graduate with experience designing and building scalable full-stack web applications and APIs. Strong foundation in both frontend and backend development, with proficiency in multiple programming languages, frameworks, and development tools. Effective collaborator with a problem-solving mindset, eager to contribute to high-quality software solutions and continue growing in a fast-paced, production-focused environment.

EDUCATION

Higher education: Tomsk State University

Faculty: Higher IT School (HITs), Specialization: **Software Engineering**

Bachelor of Science (September 2021 - May 2025)

The topics of my scientific research: «**Design and Development of Key Management System**», «**Design and Development of Project Management System**».

Offa Grammar School

High School Diploma (September 2013 - July 2019)

INTERNSHIP

Tomsk State University

Internship (Feb 2023 - May 2024)

Designed, documented, and implemented a virtual **key management system** for classrooms and offices, enabling real-time tracking of key holders, return times, and access history to improve organization security and simplify daily key handling.

Tomsk State University

Internship (Final year project | Sep 2024 - May 2025)

Designed, documented, and implemented a **project management system** with a robust strict role-based access control using .NET Core Framework, improving cross-team collaboration, overflow efficiency and reducing project coordination significantly. Additionally, the system can be used by an individual

FREELANCING

Freelancing (Jun 2023 - Jul 2023)

Developed and deployed a custom Word-press theme from scratch for an organization, ensuring responsive design and optimized performance.

SKILLS

Programming Languages: C#, Python, JavaScript, TypeScript, SQL.

Tools & Technologies: React, Git, Docker, RESTful APIs, cloud services, Flask, .NET Core, FastAPI.

Other Skills: System analysis, Software testing & debugging, Object-Oriented Programming (OOP), Database management, Data Structures & Algorithms.
